

NON-EXECUTIVE DIRECTOR KEVIN RUMBLE TO RETIRE AT THE 2020 AGM

Bio-Gene Technology Limited (ASX: BGT, 'Bio-Gene' or the 'Company') announces that Mr. Kevin Rumble has advised the Board that he intends to retire as a Non-executive Director at the 2020 Annual General Meeting

Bio-Gene Chairman, Mr. Don Brumley said: "On behalf of the Board and Bio-Gene's Executive Management Group, I would like to thank Kevin for his more than significant contribution to the Company as founder, CEO, past chairman, and board member. Kevin's passion and commitment has been and continues to be very considerable. He will continue his Board involvement until our next AGM.

"The Directors have continuously reviewed the Board skills and experience we feel are necessary to guide our company forward in the most advantageous way. Kevin's length of notice enables us to carefully identify and review a number of candidates to ensure we find the right person for the company's needs."

About Bio-Gene Technology Ltd

Bio-Gene is an Australian AgTech company enabling the next generation of novel insecticides to address the global problems of insecticide resistance and toxicity. Bio-Gene's novel platform technology is based on a naturally occurring class of chemicals known as beta-triketones.

Beta-triketone compounds have demonstrated insecticidal activity (e.g. kill or knock down insects) via a novel mode of action in testing performed to date. This platform may provide multiple potential new solutions for insecticide manufacturers in applications across crop protection and storage, public health, consumer applications and animal health. The Company's aim is to develop and commercialise a broad portfolio of targeted insect control and management solutions.
